

ARENA

100% SPUN POLYESTER

ARENA is a thread made of spun polyester by twisting two or more single yarns together.

By applying specialized chemicals in thread finishing technology, impeccable sewing is obtained. It is produced in a wide range of colours (over 300 colours).

ARENA thread has a wide implementation in the clothing industry. It is used for sewing underwear, bed linen, children's clothes as well as men's and women's clothing. It is irreplaceable in the production of coats, workwear jackets and jeans, sportswear, drapes and curtains. It is perfect for quilting and also for overlock and buttonhole machine.

A wide range of beams and thicknesses will meet the needs of every industry branch.
Please use the table below while selecting a thread:

ITEM NAME	THREAD CONSTRUCTION	BREAKING STRENGTH (not less than)	RECOMMENDED NEEDLES	BEAMS [m]	NO. OF PIECES in a packaging
ARENA 120	150 dtex x 2 30 tex	900 cN	70 - 80	500	10
				1 000	10
				5 000	10
ARENA 80N	200 dtex x 2 40 tex	1 250 cN	80 - 90	1 000	10
				5 000	8
ARENA 70	150 dtex x 3 45 tex	1 400 cN	80 - 90	1 000	10
				5 000	8
ARENA 50	270 dtex x 2 56 tex	1 800 cN	100 - 120	5 000	4
ARENA 30	300 dtex x 3 90 tex	3 000 cN	110 - 130	150	10
				1 000	15
				5 000	4
ARENA 10	500 dtex x 4 200 tex	7 000 cN	140 - 160	1 000	8

Main applications of **ARENA** thread:

- ARENA 120 ▶ Men's and women's clothing, underwear, bed linen, overlock.
- ARENA 80N ▶ Coats, suits, workwear uniforms, quilting and buttonhole machines.
- ARENA 70 ▶ Coats, workwear, buttonhole machines, jeans.
